# Conclusion

- Global SDG Progress is slow, and its average is 66.3
  - Most of 17 SDGs has been stagnating
  - Even, progress in some SDGs decreasing
    - SDG 2, SDG 3, SDG 11
    - SDG 14, SDG 15, SDG 16
- IsDB average SDG score stands at 62.1%
  - Have a long road ahead to achieve the SDG targets by 2030
  - No MC which could be considered unsatisfactory (below 40%)
  - However, still 22 MCs with lower than satisfactory achievement (below 60%)

# Conclusion

- Wide differences in challenges across MCs and SDGs
  - But the most challenging goal is SDG 5 (Gender Equality)
    - Shows the gender gap and the need for promoting women empowerment
  - The second most challenging goal is SDG 9 (Industry, Innovation and Infrastructure)
    - Vital for the sustainable development as it drives economic growth, creates jobs, and promotes technological advancements
  - On the other hand, SDG 12 (Responsible Consumption and Production) and 13 (Climate Action) have very satisfactory scores
    - Might be due to early stages of economic development and less accurate data
- IsDB has a significant role in supporting MCs to overcome roadblocks to development and continue to make progress towards to the SDGs
