Surveys

PAPI (Paper Pencil Interview)

CAPI (Computer Assisted Personal Interview)

Staff

- Proficient interviewers
- More IT staff

Software

- Specialized software
 - Real-time data entry
 - Automatic validation
 - GPS tracking

Hardware

- Tablets or laptops

Evolution of Statistical Production- Data Collection

Surveys

PAPI (Paper Pen Interview)

CAPI (Computer Assisted Personal Interview)

CATI(Computer Assisted Telephone Interview)

Staff

- CATI operators
- More IT staff

Software

- Integrated telephone and survey

Hardware

- Robust telecommunications system

Evolution of Statistical Production- Data Collection

Surveys

PAPI (Paper Pen Interview)

CAPI (Computer Assisted Personal Interview)

CATI (Computer Assisted Telephone Interview)

CAWI (Computer Assisted Web Interview)

Mixed Method

Staff

- More IT staff

Software

- Advanced online survey platforms
 - Data validation
 - Real-time analytics
 - Responsive design for mobile devices

Hardware

- Servers
 - To host surveys
 - Manage high traffic
- Reliable internet connections

Evolution of Statistical Production- Data Collection

Surveys

CAWI (Computer Assisted Web Interview)

Mixed Method

Staff

- More IT staff

Software

- Advanced online survey platforms
 - Data validation
 - Real-time analytics
 - Responsive design for mobile devices

Hardware

- Servers
 - To host surveys
 - Manage high traffic
- Reliable internet connections

Evolution of Statistical Production- Data Collection

Administrative Data

Steps

- Data Source Identification
- Formal Agreements and Legal Frameworks
- Data Collection Infrastructure
- Data Validation and Quality Checks
- Data Integration and Standardization
- Metadata Management
- Data Storage and Security

Staff

- Data Analysts and Statisticians
- IT Specialists
- Data Governance Officers

Software

- Data Management Systems
- Data Quality Assessment Tools
- APIs and Automation

Data Quality

- Validation and Error Checking
- Metadata and Documentation
- Continuous Monitoring

Hardware

- Secure Servers and Databases
- Cloud Storage
- Data Encryption and Secure Networks

Evolution of Statistical Production- Data Collection

Big Data

Steps

- Data Source Identification
- Legal and Regulatory Framework
- Data Infrastructure Setup
- Data Processing and Cleaning
- Data Analysis and Modeling
- Data Quality Assurance
- Big Data Governance

Staff

- Data Scientists and Analysts
- IT Specialists
- Geospatial Analysts
- Data Engineers
- Data Governance Officers

Software

- Data Management Platforms
- Data Processing and Analysis
- Big Data Visualization
- Data Quality Tools
- Security and Privacy

Data Quality

- Data Quality Assurance Frameworks
- Automated Data Validation
- Metadata Management
- Sampling and Representativeness
- Anonymization and Data Protection

Hardware

- High-Performance Servers
- Cloud Infrastructure
- Data Backup
- Networking Infrastructure
- Workstations for Analysts

Evolution of Statistical Production

Requirements of Evolution and Organization

Category	Survey Data	Administrative Data	Big Data
Staff	Statistician	Data Scientists	Data Scientists
	Proficient interviewers	IT Specialists	AI/ML Experts
		Legal Officers	Data Engineers
Software	SPSS, Stata, R etc.	Oracle, PostgreSQL	Hadoop, Spark
	Survey Software (In-House/ Outsourced)	Talend for data integration	Python etc. for analytics
Hardware	Mobile devices for data collection	Secure servers for structured data	High-performance servers
	Basic servers for storage	VPN for secure transfers	Cloud infrastructure (AWS, Azure, GCP)
Stakeholders	Survey respondents	Government agencies	Big data providers
		Legal and regulatory bodies	Cloud service providers
			Data privacy regulators

Key Experiences from OIC Member Countries

Indonesia (BPS)	Poverty Mapping	Using satellite imagery
	Trade by Enterprise Characteristics (TEC)	Fuzzy matching technique
Malaysia (DSOM)	Public Maturity Assessment on Official Statistics (PMAOS)	Uses text mining technique for sentiment analysis
	Earth Observation (EO)	Using satellite imagery
	CPI	Web Scraping and Scanner Data
Türkiye (TurkStat)	CPA Classification in E-Invoices	Machine Learning Technique
	Job Vacancies Classification (ISCO-08)	Neural network

Statistical Activities About Digitalization

54 statistical activities organized successfully **since 2007** with the participation of more than **1800** experts from NSOs and other relevant national institutions of the OIC member countries.

- **Inclination survey** to identify the themes of common **interest in modernization of the NSOs through digitalization**
- Circulated in August 2024

Distribution of Statistical Activities

INCLINATION SURVEY

Does your institution currently have any digitalization strategies in place?

■ Yes ■ No ■ In Progress

How important is digitization for your institution?

■ Very Low ■ Low ■ Moderate ■ High ■ Very High

How would you evaluate the level of digitalization at your institution?

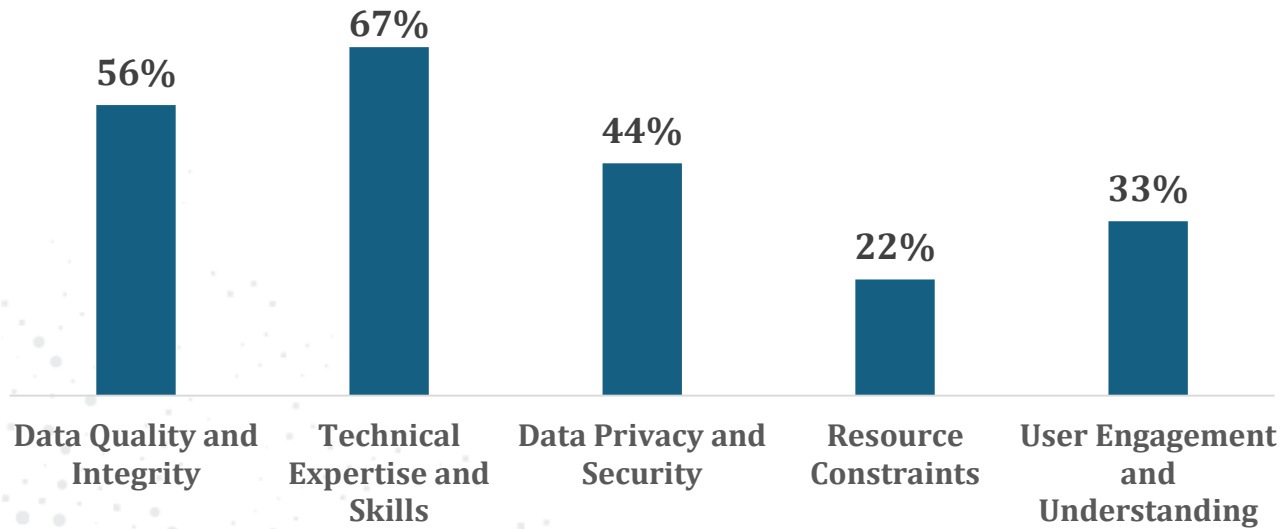

■ Very Low ■ Low ■ Moderate ■ High ■ Very High

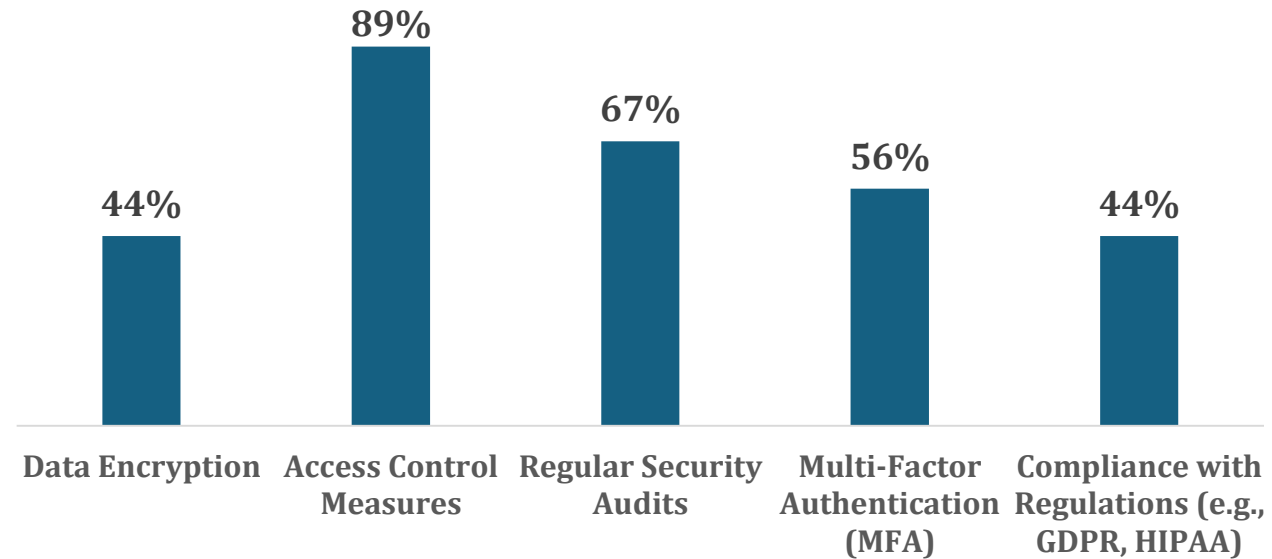

INCLINATION SURVEY

What types of security challenges does your institution face?

How does your institution ensure the security of the statistical data?

INCLINATION SURVEY

Has your institution begun implementing machine learning or AI technologies in any of its processes or operations?

Which areas are AI/ML being applied?

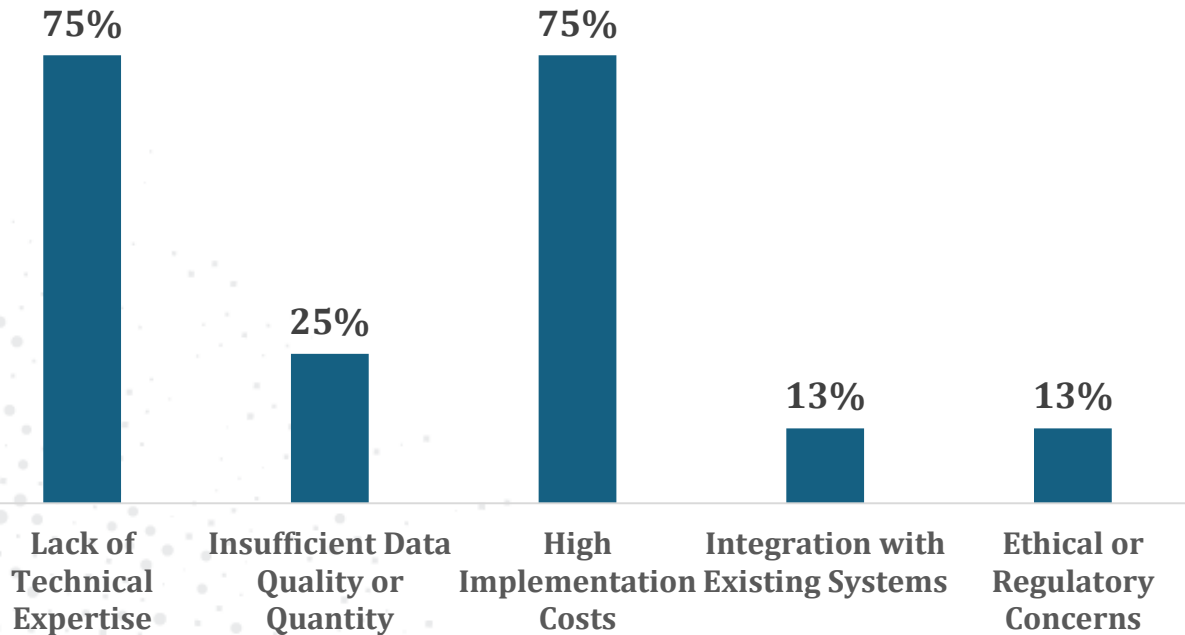

INCLINATION SURVEY

What are the main challenges your institution faces or anticipates facing in adopting machine learning or AI technologies?

What types of support would be most beneficial to your institution's digital transformation efforts?

Impressions from Statistical Activities

Training Course on 'Big Data Applications on Price Intelligence',
14-16 June 2022

Webinar on 'Transforming Administrative Registers for Statistical
Data Production', 14 February 2023

Webinar on 'Modernization of NSOs through Digitalization',
26 September 2024

Webinar on 'Big Data Applications and Utilizing Non-
Traditional Data Sources and Methods for Official
Statistics', 10 June 2021
